Soft & Sensuous

Soft and sensuous marks this season's collection. Well into our 10th year designing beautiful wedding gowns, our original mantra of clean, simple, contemporary lines still holds true.

Delightfully airy and romantic with the use of new lighter Habutai silk, organza and chiffon to mould the pleated shapes into extremely graceful gowns. Cascading soft organza hand-cut flowers fall from one sided shoulders; streams of chiffon billow out from trains after being synched in neatly by dazzling yet understated art deco brooches.

Touches of key jewelled brooches are peppered throughout. This collection has something to offer everyone in terms of shapes and silhouettes with a vast array of necklines and new ways at looking at trains.

This is one collection not to be missed!

Not to be missed: Since arriving in store from the March collection – Kelly, Anya and Margarita – repeats are excellent and if you missed these – they should be definitely on your consideration list for 2010.
